

## Advanced Analytics Senior Consultant

We have an open role in our SAP HANA & Business Intelligence Centre of Excellence (CoE) for a consultant with demonstrable skills and experience in Advanced Analytics and Data Science, primarily in SAP but also in other technologies. The successful candidate would be expected to help develop this growing area of work within Bluefin, working with some of our biggest global clients to shape their capabilities in this space. The role is a mixture of technical and functional consulting, with some business development when required. The candidate should be adaptable and “self-starting”, and able to take the initiative to learn new technologies and approaches. It is expected that the candidate would help shape the direction of the CoE in the Advanced Analytics space, moving to a lead role within the CoE if and when this is deemed appropriate by the CoE Leadership Team.

### Duties and responsibilities

---

- Project work as a functional / technical consultant.
- Business development & pre-sales.
- Shaping CoE strategy in Advanced Analytics, reporting to CoE Leadership Team.
- Providing internal training on an occasional basis.

### Reports into:

HANA Lead.

### Location:

UK based with travel.

### Skills and experience

---

- Demonstrable skills and experience in the SAP predictive analytics toolset. This can include: SAP Predictive Analytics (PA), SAP HANA PAL, R integration with PA/HANA.
- Experience in SAP BW / BW on HANA.
- Experience in delivering analytics workflows in Alteryx desktop, desirable also in Alteryx Server.
- Desirable: SQL Script modelling in native HANA & with PAL algorithms.
- Rapid data exploration & discovery, e.g. using R / Python / Alteryx. The candidate should feel comfortable starting from a “blank sheet of paper” and building an analytical model.
- Desirable: some experience in delivering data “lake” / platform ideally in SAP HANA (and Vora), desirable in MS Azure.
- At least 5 years of client-facing consulting experience.
- Experience in pre-sales / business development activities in the Advanced Analytics space. The candidate should be a “champion” of Advanced Analytics and be able to inspire their clients to do more in this space.

### Key attributes

---

- Self-starting, able to learn new technical skills quickly, excellent client-facing skills, data science background.

## Reward and benefit

- Competitive base salary (plus bonus)
- Family health insurance
- Life insurance
- 25 days holiday
- Comprehensive expenses policy
- Cycle to work scheme
- Childcare vouchers
- GAYE

## About Bluefin

---

Bluefin is the Mindtree SAP practice. We work with customers to challenge traditional thinking and bring new ideas to life through SAP technology. Every day, a Bluefin team of industry consultants is listening, advising and helping to create value for large organisations across the world. Headquartered in the United Kingdom, we have offices in Malaysia, Singapore and the United States.

Mindtree is an equal opportunity employer.
